

MISSION Ranch

FIBER COMES TO MISSION RANCH

What is Fiber?

The latest technology to bring internet, telephone, cable and your favorite smart home devices up to speed – and we mean really high-speed! With the largest bandwidth capacity available, Fiber can send and receive data at the speed of light – that’s twenty times faster than today’s high-speed data connections. Plus, Fiber cables are buried, meaning you’re less likely to experience outages due to ice, storms, or other external causes. Best of all, Fiber is now included in your HOA dues.

WHAT’S INCLUDED FOR \$30/MONTH IN THE HOA DUES?

25 Mbps of download speed and 100 Gb of data

This plan is ideal for a couple who streams content at home and may browse the internet at the same time.

WANT MORE?

You can add additional capacity for minimal cost.

Upgraded Data Service Plans for:

- **50 Mb (250Gb data) for \$39.99/month**
- **100 Mb (350 Gb data) for \$54.99/month**
- **200 Mbps (unlimited data) for \$69.99/month**
- **1 Gbps (unlimited data) for \$119.99/month**

These plans are ideal for families where kids and parents may be streaming shows, playing games or browsing the web at the same time. Furthermore, these plans are great for someone who works from home and may require significant data to perform daily tasks.

HOW DO I GET MY SERVICES CONNECTED?

- Choose the internet package that best fits your needs
- Select the optical network unit - \$149.99 to purchase or \$10/mo. to rent
- Contact CEO Technologies to schedule install service 30 days prior to move in
